Hi Doug

On page 23, the third line, third column pull-down menu was accidentally used to select "Adhere to requirements in part III of Appendix H." Once that was selected, the text could not be deleted. While there are fecal coliform impairments in several waterbodies (94-02 Scituate Harbor, 94-07 Herring River, 94-09 South River, 94-19 Bound Brook, and 94-33 Musquashcut Pond), these waterbodies are all covered under the South Coastal Watershed TMDL described on page 22, and thus, should not be listed on page 23. Please let us know if you have any questions about this or need additional information at this time.

Thanks
Sean
