Subject: RE: Small MS4 NOI submission - additional or corrected information required
Date: Tuesday, November 13, 2018 8:11:47 AM

HI Doug,

The City acknowledges that:

-Cain Pond MA62030, for Turbidity & DO, -Unnamed Tributary to Taunton River MA62-48, for Water Temp & Bioassessment -Lake Sabbatia MA62166, for DO are dropped from Part III, Actions for Meeting Requirements Related to Water Quality Limited Waters.

I was wondering when you thought the NOI would be posted for public comment and if you needed anything else before this could happen.

Thanks for your help,

Nicole B. Iannuzzi, PE

Fred,
I re-reviewed your NOI, another discrepancy, specifically dealing with Impaired Waters (Part III, Actions for Meeting Requirements Related to Water Quality Limited Waters).

You have listed the following bodies of water as being covered by part V of Appendix H:
-Cain Pond MA62030, for Turbidity & DO, -Unnamed Tributary to Taunton River MA62-48, for Water Temp & Bioassessment -Lake Sabbatia MA62166, for DO

Part V of appendix H deals with Hydrocarbons, Solids, and Metals, not DO, Turbidity, Water Temp, or Bioassessments. So there was an error in listing those bodies of water as having Appendix H apply to them. But it's a simple fix, as you just have to drop them from that section, and acknowledging that via email is sufficient.

Watson Pond (MA62205) was categorized correctly in that section.

Please let me know if you have any questions,

Fred,

I just finished reviewing your NOI for the MS4 general permit, and while most of it is in good order, there are a couple of discrepancies with the ESA and NHPA sections, which are noted on the first attachment. Can you please address those discrepancies, and then get back to us? There is no need to resubmit the entire NOI, just the requested information. And please let me know if you have any questions.

Thank you,

Doug MacLean
