

Titanium Dioxide Production Monitoring Checklist

Final Rule: Mandatory Reporting of Greenhouse Gases

What Must Be Monitored for Each Process Line?

If NOT using a CEMS, measure these parameters on a monthly basis (unless otherwise noted)...

- | | |
|---|--|
| <input type="checkbox"/> Calcined petroleum coke consumption (tons) | <input type="checkbox"/> Annual and monthly production of titanium dioxide (tons) |
| <input type="checkbox"/> Carbon content factor for petroleum coke consumed from the supplier or as measured (percent by weight) | <input type="checkbox"/> Annual operating hours for each titanium dioxide process line (hours) |
| <input type="checkbox"/> Annual consumption of calcined petroleum coke (tons) | <input type="checkbox"/> Annual production of carbon-containing waste (tons), if applicable |

If facility generates carbon containing wastes:

- | | |
|---|--|
| <input type="checkbox"/> Monthly production of carbon containing waste (tons) | <input type="checkbox"/> Annual sample of carbon content for carbon containing waste (percent by weight) |
|---|--|

If using a CEMS:

In addition to the monitoring requirements under 40 CFR subpart C for the Tier 4 Calculation Methodology, measure these parameters...

- | | |
|---|---|
| <input type="checkbox"/> Annual consumption of calcined petroleum coke (tons) | <input type="checkbox"/> Annual production of carbon-containing waste (tons), if applicable |
| <input type="checkbox"/> Annual production of titanium dioxide (tons) | |
