

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

DIVISION OF AIR AND HAZARDOUS MATERIALS
291 Promenade Street
Providence, R.I. 02908-5767

MAY 2 1990

Mr. Louis Gitto
US EPA Region 1
JFK Federal Building
APC-2231
Boston, Mass 02203

April 26, 1990

Dear Mr. Gitto,

With this letter please find a copy of the Amendment to Providence Metallizing's consent agreement which the Division is submitting to EPA for approval as a source-specific SIP revision. The consent agreement has been approved by the Division with the authority given under the provisions of Air Pollution Control Regulation 15 and Rhode Island General Law 23-23 as amended. This amendment incorporates all the changes which were required by EPA's notice of proposed rulemaking published in the 12 September 1988 Federal Register. The amendments include changes which bring Providence Metallizing into compliance with the requirements of EPA's final Emissions Trading Policy Statement. The technical support document for this SIP revision includes the required state bubble assurances. Also enclosed are copies of the Notice of Public Hearing, the transcript of the public hearing, and the amendment to the consent agreement which incorporates the comments which were made at that hearing.

Sincerely,

Thomas Getz, Chief
Division of Air and Hazardous Materials

cc Bob Judge
Steve Spura, Providence Metallizing
