

Water Savings Are Part of My Future in 2023!

I will celebrate the new year and practice saving water throughout 2023, by taking the “I’m for Water pledge” at www.epa.gov/watersense/im-water-pledge. To uphold my pledge, I will check off one or more simple steps each month to save water for myself, my family, and future generations.

JANUARY 2023

- ❑ I will take the [“I’m for Water” pledge](#) and make saving water my resolution for the new year.
- ❑ I will learn how to [read my water bill](#) and see how much I use each month.

FEBRUARY 2023

- ❑ If I have an older toilet, I will look for the [WaterSense label](#) when purchasing a new one.
- ❑ I will [upgrade my bathroom](#) with WaterSense labeled fixtures that match my style and save water.

MARCH 2023

- ❑ This [Fix a Leak Week](#) I will take 10 minutes to find and fix leaks in my home.
- ❑ I will [test my toilet for leaks](#) and install a new flapper if needed.

APRIL 2023

- ❑ For Earth Day, I will inspect, direct, connect, and select my way to water savings and [spruce up my irrigation system](#).
- ❑ If I need assistance with my irrigation system this spring, I will [go with a pro](#) and reduce water waste.

MAY 2023

- ❑ I will review the WaterSense [pool water efficiency guide](#) to make sure my pool is not wasting water this summer.
- ❑ When adding to my landscape, I will select [native, climate-appropriate plants](#).

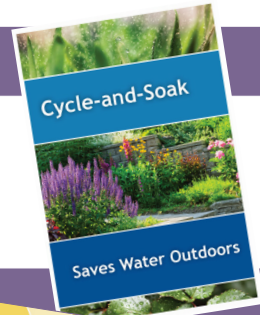

JUNE 2023

- ❑ I will review how affordable [WaterSense labeled products help people save](#) water, energy, and money.
- ❑ I will celebrate [World Environment Day](#) by adding mulch in flower beds and around bushes to make irrigation more efficient.

JULY 2023

- During Smart Irrigation Month, I will learn about the [cycle-and-soak irrigation method](#) and add it to my watering routine.
- I will consider installing a [WaterSense labeled soil moisture sensor](#) to only water plants when they need it.

AUGUST 2023

- I will [figure out if my area is in drought](#) and do my part to save water.
- I will go to my water utility's website to learn about and follow any [watering restrictions](#).

SEPTEMBER 2023

- I will make a smarter landscape this fall by [grouping new plants](#) together by watering needs.
- I will look for [WaterSense labeled irrigation products](#) when updating my sprinkler system.

OCTOBER 2023

- I will swap out old, inefficient [showerheads](#) with WaterSense labeled models.
- I will [save water and energy](#) by taking shorter showers in honor of Energy Awareness Month.

NOVEMBER 2023

- I will prepare for the cooler weather by [adjusting my irrigation controller](#) to avoid overwatering my landscape.
- I will give thanks on [World Toilet Day](#) for my access to clean plumbing technology.

DECEMBER 2023

- I will use the [WaterSense Product Search Tool](#) when looking for new, water-saving fixtures for my home.
- I will start planning for 2024 by recommitting to year-long water savings with the ["I'm for Water" pledge](#).

For more ideas about saving water, visit the [WaterSense website](#) or follow us on social media.
