Dear Administrator McCarthy,

Westchester and the entire Hudson Valley region cannot tolerate the AIM Spectra pipeline project.

We already live with the danger of an aging nuclear facility in our midst.

And the air quality is already below acceptable standards.

And – we live in an historic time in which we KNOW we MUST begin to reduce our use of fossil fuels.

And – we know that gas leaks and gas pipes explode.

All these facts should lead your office to understand there should be no permits issued for the AIM Spectra pipeline project.

And – there has yet to be a clear assessment of the real health and safety risks of this project.

I implore you to use your good office to put a stop to this project – now.

Thank you,

Cari Gardner
