Part II. Self-Assessment

The Town has been continuing our stormwater sampling project and has been working with the BOH to eliminate illicit discharges to our stormwater system. I have written an illicit discharge by-law that will be presented and voted on at the May town meeting. Our sewer project is in full swing and nearing completion, we have been uncovering and blocking non-permitted drain lines. Several outfall locations have been identified as being in need of repair and we are working to fund these jobs. I have some funds available for mailings and I am working on getting a mailing together for future water bills. I have had no progress on the elementary school education as I have had little time to deal with this issue this year. As in past years funding is a concern as well as limited manpower. We are doing our best to implement new projects and hopefully when we have completed our sewer system in December 2005 we can put more man power toward this project.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 2 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 3
SX1 Revised	Hazardous Waste Day	DPW Paul Goodwin	See Attachment 1	HHWD is scheduled to be held on June 11 th .	We are planning to continue with HHWD around the same time.
SX2 Revised	Water Conservation	Water Dept. Paul Goodwin	See Attachment 1	Working on mailing for upcoming water bills.	More mailings.
SX3 Revised	Lawn & Garden	Wastewater Erik Mansfield	See Attachment 1	Working on mailings for upcoming water bills.	More mailings.
SX4 Revised	Classroom Education	Wastewater Erik Mansfield	See Attachment 1	No action taken.	Work with Elementary school.

ATTACHMENT 1

MEASURABLE GOALS

- SX1** – Distribute flyers with information about what hazardous waste day is about and what it hopes to accomplish. Post banners around town to inform the public of dates and locations.
- SX2** – Send out flyers with water bills informing the public of the benefits of water conservation.
- SX3** – Distribute flyers to home owners and business owners on the effects of fertilizers and chemical lawn and garden products.
- SX4** – Work with Elementary School to develop a classroom education program.
- SX5** – Work with local girl and boy scouts on a drain stenciling program.
- SX6** – Work with the Elementary School with poster drawing and getting the children out into Town to see where the drains start and where they end.
- SX7** – Add more programs to the current hazardous waste day to increase amounts of materials.
- SX8** – Work with Board of Health to make sure we are made aware of all failing septic systems.
- SX9** – Continue to issue permits for all connections to the Towns storm drain systems.
- SX10** – Continue with the current storm water sampling program implemented in 1996.
- SX11** – Periodic inspections of outfalls to determine if street sweeping and catch basin cleaning is adequate.
- SX12** – Work with Conservation Commission to ensure construction site inspections are being performed and that the contractors are maintaining all barriers.
- SX13** – Visually inspect construction site entrances and exits to ensure streets are clean.
- SX14** – Work with Conservation Commission to ensure correct and proper placement of silt fences.
- SX15** – Work with the Planning Board to look at alternative pavers as an option for developments.
- SX16** – Visually inspect catch basins on private roads and work with homeowners to develop a plan that addresses cleaning and maintenance.
- SX17** – Work with Planning Board to reduce the amount of street curbing used in new developments.
- SX18** – Build a truck wash bay for cleaning Town vehicles. The Town has already appropriated the funds for this project.
- SX19** – Look at current street sweeping schedule and determine if it is adequate.
- SX20** – Look at current cleaning schedule and inspect basins in between cleanings to determine if it is adequate.
- SX21** – Repair broken drain lines and catch basins that may have collapsed.
- SX22** – Build a new salt storage facility. The Town has already appropriated the funds for this project.
- SX23** – Install a public sewer system. The Town of Essex is currently in the process of installing a public sewer system.

ATTACHMENT 2

MEASURABLE GOALS

SX24 – Create a Town wide Bylaw allowing fines for illicit discharges to the storm drain system. Work with Conservation Commision and Board of Health to create and enforce Bylaw.

SX25 – Create a Town wide Bylaw allowing fines for construction site runoff violations. Work with Conservation Commision and Planning Board to create and enforce Bylaw outside of the wetlands protection area.

SX26 – Create a Town wide Bylaw allowing fines for post construction site runoff violations. Work with Conservation Commision and Planning Board to create and enforce Bylaw outside of the wetlands protection area.

SX27 – Maintain current outfall map and update when needed.
