Part II. Self-Assessment

The release of oil from a tanker into Buzzards Bay in late April 2003 galvanized the community around the cleanup and protection of this important resource area, and made people aware of the impacts of oil to our resources. The public outreach and education in Year 1 focused on this issue, and also get the word out regarding the Fire Department's role in emergency response for releases. The Town of Mattapoisett has completed the required self-assessment and has determined that our municipality is in compliance with the Year 1 permit conditions.

Acronyms Used in Following Pages

BBPNEP = Buzzards Bay Project National Estuary Program

BI = Building Inspector

BOS = Board of Selectmen

ConCom = Conservation Commission

DPW = Department of Public Works

FD = Fire Department

HD = Highway Department

PB = Planning Board

PD = Police Department

SD = School District

WSC = Water & Sewer Commission

Part III. Summary of Minimum Control Measures

7b. WLA Assessment

Part IV. Summary of Information Collected and Analyzed

- The release of oil from a tanker into Buzzards Bay in late April 2003 resulted in an increased interest and awareness of the fragility of the ecosystem. Town officials and residents have kept informed regarding the impacts and cleanup activities, which are ongoing.
- The BOH samples public beaches throughout the Town. No beach closures were required in Permit Year 1.
