NATIONAL RURAL ELECTRIC)	RISK-BASED DISPOSAL
COOPERATIVE ASSOCIATION (NRECA))	
MEMBERS IDENTIFIED IN)	FOR POLYCHLORINATED BIPHENYL
APPENDIX II)	
)	(PCB) REMEDIATION WASTE
4301 WILSON BLVD)	
)	
ARLINGTON, VIRGINIA 22203-1860)	

AUTHORITY

These Approvals are issued pursuant to Section 6(e)(1) of the Toxic Substances Control Act (TSCA), 15 USC § 2605(e)(1), and the Federal Polychlorinated Biphenyl (PCB) Regulations at 40 CFR 761.61(c).

Failure to comply with the approval conditions specified herein shall constitute a violation of these Approvals and of 40 CFR 761.61(c) and 761.50(a) and may also be a violation of other provisions of 40 CFR part 761, subpart D. A violation of the regulations or an order issued pursuant to TSCA and its implementing regulations is a prohibited act under Section 15 of TSCA.

BACKGROUND AND FINDINGS

Background information on the National Rural Electric Cooperative Association, and the U.S. Environmental Protection Agency's (EPA's) findings related to these Approvals are included in Appendix I.

EFFECTIVE DATE

These Approvals are effective upon signature by the Director of the Waste and Chemical Implementation Division (WCID) in the Office of Resource Conservation and Recovery (ORCR) and shall expire five (5) years from the date of signature, unless otherwise specified in Condition 13.

Approval

Appendices

- I. Background and Findings
- II. NRECA Members Receiving Approval
- III. Notification Information

DEFINITIONS AND ACRONYMS

Definitions found in 40 CFR 761.3 apply unless otherwise noted below.

“Appropriate EPA Regional PCB Coordinator” means the PCB Coordinator(s) for the EPA Region(s) where the cleanup site and final disposal facility are located. A list of PCB Coordinators and their contact information can be found at the following website: <http://www.epa.gov/pcbs/program-contacts>.

“As-found concentration” means as-found concentration as defined in 40 CFR 761.3.

“MSWLF” means municipal solid waste landfill.

“NRECA Member” means the NRECA member, as identified in Appendix II of these Approvals, who is receiving approval for disposal of as-found concentrations of < 50 ppm PCB Remediation Waste originating from a secure utility asset it owns or operates.

“PCB Remediation Waste” means PCB remediation waste as defined in 40 CFR 761.3.

“Secure utility asset” or “Site” means a facility that is not accessible to the general public where PCB response actions are conducted and performed by, or under the supervision of, utility professionals and/or consultants with experience in responding to and remediating PCB releases. Secure utility asset includes secure electric cooperative asset and secure rural electric utility asset. Examples include service centers, substations, switch-yards, power generating stations, and network vaults that are properly fenced, locked, and not accessible to the general public.

CONDITIONS OF APPROVALS

(1) Applicability

NRECA Members may dispose of non-liquid PCB Remediation Waste with as-found concentrations of less than (“<”) 50 parts per million (ppm) PCBs¹ in the non-TSCA approved landfill facilities identified in Condition 9, provided the NRECA Member satisfies the conditions of these Approvals, and the PCB Remediation Waste is generated at a secure utility asset that is owned or operated by the NRECA Member. In cases where the listed NRECA Member is a parent company, the permissions of these Approvals apply to PCB Remediation Waste generated at secure utility assets owned or operated by the NRECA Member’s operating company, if the parent company retains responsibility or liability for the PCB-related operations at the secure utility asset.

(2) Agency Approvals or Permits

Prior to commencing operations under these Approvals, the NRECA Member shall obtain any other necessary federal, state, or local permits or approvals associated with the cleanup, removal, storage, transportation, and disposal of the PCB Remediation Waste subject to these Approvals.

These Approvals do not shield NRECA Members from obligations to comply with any other applicable federal, state and/or local laws, regulations, or ordinances.

PCB Remediation Waste remaining at the Site that is not disposed of under these Approvals is not covered by these Approvals, but remains subject to any applicable cleanup and disposal requirements of 40 CFR part 761, subpart D.

When these Approvals are used for disposal of PCB Remediation Waste, the NRECA Member shall conduct site cleanup in accordance with either 40 CFR 761.61(a), (b)(1), or (c). Completion of compliant cleanup and disposal is necessary for the continued use of the site under 40 CFR 761.30(u).

(3) Authorized Application of Approvals

NRECA Members are authorized to dispose of PCB Remediation Waste with an as-found concentration of < 50 ppm PCBs in disposal facilities or units enumerated in Condition 9. These Approvals only apply to PCB Remediation Waste generated within secure utility assets that are owned or operated by a NRECA Member listed in Appendix II.

(4) Public Notice

¹ These Approvals also apply to PCB Remediation Waste non-porous surfaces having surface concentrations less than 100 µg / 100 cm².

To provide information to the public, no less than two (2) working days before the first shipment of PCB Remediation Waste leaves the control of each NRECA Member utilizing these Approvals, the NRECA Members shall post prominently on their website this approval document and a notice to the public stating that the Approvals allow NRECA Members to dispose of PCB Remediation Waste with as-found concentrations of < 50 ppm PCBs in the non-TSCA approved landfill facilities identified in Condition 9. Such notification shall be considered “prominent” for purposes of this condition if posted on a part of the NRECA Member’s website where a visitor to the website would reasonably expect to see announcements of environmental projects or community outreach activities, including for example and without limitation, an Environmental Services or Member Services webpage of the NRECA Member’s website. The notice shall include contact information of an individual employed by, or an office of, the NRECA Member to be used by individuals seeking additional information from the NRECA Member regarding the existence, applicability, and/or use of the Approvals. The aforementioned public notice and the copy of the Approvals shall stay posted on the NRECA Member’s website until these Approvals expire.

(5) Notification

For each disposal conducted under these Approvals, the NRECA Member shall submit notification by email, certified mail, or courier no less than two (2) working days before the first shipment of PCB Remediation Waste leaves the control of the NRECA Member to:

- a) The EPA Headquarters Office of Resource Conservation and Recovery’s (ORCR’s) Cleanup Programs Branch Manager;
 - i. **By email:** ORCRPCBs@epa.gov
 - ii. **By mail (USPS):**
Cleanup Programs Branch Manager
Office of Resource Conservation and Recovery
U.S. Environmental Protection Agency
1200 Pennsylvania Ave., N.W. (Mail Code 5303T)
Washington, DC 20460-0001
 - iii. **By courier (FedEx, UPS, etc.):**
ATTN: Britta Bierwagen
U.S. Environmental Protection Agency
William Jefferson Clinton West Building
1301 Constitution Avenue N.W.
Washington, DC 20004
- b) The appropriate EPA Regional PCB Coordinator (see <https://www.epa.gov/pcbs/epa-regional-polychlorinated-biphenyl-pcb-programs#regionalcontacts> for contact information); and
- c) The appropriate state, tribal, and/or local government officials where the NRECA member’s secure utility asset is located.

This notification is required each time that the NRECA Member disposes of PCB Remediation Waste using these Approvals.

The notification shall contain the following information, and may be provided in the format found in Appendix III:

- a) NRECA Member name (as it appears in Appendix II) and address;
- b) EPA ID number of the secured utility asset, if the NRECA Member has one;
- c) Name and contact information (phone and email address) of primary NRECA Member contact;
- d) Name and contact information (phone and email address and, if not the same as the address of NRECA Member, mailing address) of primary NRECA Member recordkeeping contact;
- e) Site location (street address, city, county, state, and zip code; latitude/longitude coordinates are permissible if Site does not have a street address);
- f) Date PCB Remediation Waste was discovered;
- g) Size of Site area containing the PCB Remediation Waste being disposed of pursuant to these Approvals;
- h) Description of the PCB Remediation Waste, including maximum as-found concentration of PCBs and estimated quantity to be disposed of under these Approvals; and
- i) Name, location, and type of facility where the waste will be disposed.

The EPA will make these notices available to the public on its website at <https://www.epa.gov/pcbs/nationwide-risk-based-pcb-remediation-waste-disposal-approvals>.

For each disposal conducted under these Approvals, the NRECA Member shall provide written notice to the disposal facility stating that it will ship PCB Remediation Waste with as-found concentrations of < 50 ppm PCBs to the disposal facility (see Condition 9). This written notice shall be kept in accordance with the recordkeeping requirements of Condition 6.

(6) Record Keeping

The NRECA Member shall maintain the following records either at the Site where the PCB Remediation Waste was generated, or at a facility owned or operated by the NRECA Member, for a period of five (5) years following the transport of the PCB Remediation Waste off-site for disposal and shall make such records, in hard copy or electronic format, available upon request to the EPA:

- a) Copy of this approval document;
- b) Copy of the notification submitted to the EPA (see Condition 5);
- c) Description of the sampling and analytical methodologies used to confirm PCB concentrations of the PCB Remediation Wastes (see Conditions 7 and 8);
- d) Copy of analytical results from the characterization sampling conducted (See Conditions 7 and 8);
- e) Copy of the written notice the NRECA Member provided to the disposal facility (see Condition 5);
- f) Identification of the source of the spill (e.g., type of equipment), if known;
- g) Date, time, and source concentration of the spill, if known;
- h) A brief description of the spill location and the nature of the contaminated materials; and
- i) The amount of PCB Remediation Waste disposed of.

(7) Waste Characterization

The NRECA Member shall characterize, at the time of discovery, the PCB Remediation Waste in accordance with one of the following procedures, as applicable to the particular substrate, to verify that the PCB Remediation Waste contains as-found concentrations of < 50 ppm PCBs:

- a) Sampling bulk remediation waste and waste surfaces procedures as specified in 40 CFR 761.265;
- b) EPA guidance “*Standard Operating Procedure for Sampling Porous Surfaces for Polychlorinated Biphenyls (PCBs)*”² Revision 4, dated May 5, 2011, as that document may be amended, replaced, and/or superseded; or
- c) For non-porous surfaces only, standard wipe test as specified in 40 CFR 761.123 and 761.267.

(8) Waste Analysis

The NRECA Member shall conduct chemical extraction for PCBs using extraction Method 3540C and chemical analysis for PCBs using Method 8082A, or the most current version of these methods, from EPA publication SW-846, *Test Methods for Evaluating Solid Waste, Physical/Chemical Methods*; another method allowed for in the PCB Regulations at 40 CFR part 761 for the matrix being sampled; or another method which meets or exceeds the requirements

² This guidance can be found at: <https://www.epa.gov/pcbs/standard-operating-procedure-sampling-porous-surfaces-polychlorinated-biphenyls-pcbs>

of Subpart Q. 40 CFR 761.1(b)(2) requires that PCBs be quantified based on the formulation of PCBs present in the material analyzed.³

(9) Disposal Options

Under these Approvals, PCB Remediation Wastes with as-found concentrations of < 50 ppm PCBs may be disposed of in any of the following facilities subject to state and local regulations regarding such disposal:

- a) Facilities permitted, licensed, or registered by a state to manage municipal solid waste subject to 40 CFR part 258;
- b) Facilities permitted, licensed, or registered by a state to manage non-municipal non-hazardous waste subject to 40 CFR 257.5-257.30, as applicable, with the exception of any such unit that manages liquid wastes including pits, ponds, and lagoons;
- c) Hazardous waste landfills permitted by the EPA under section 3004 of the Resource Conservation and Recovery Act (RCRA), or by a state authorized under section 3006 of RCRA.

In addition to the disposal options listed in these Approvals, PCB disposal facilities approved under 40 CFR part 761 and listed in 40 CFR 761.61(b)(2)(ii)(A), such as chemical waste landfills approved under 40 CFR 761.75, are disposal options for PCB Remediation Waste with as-found concentrations of < 50 ppm PCBs.

(10) Waste Sampling and Handling Equipment

The NRECA Member shall ensure equipment used for conducting waste sampling or waste handling (e.g., personal protective equipment, shovels, brushes, rags and wipes) which is contaminated, or has been in contact with, PCB Remediation Waste disposed of under these Approvals is managed according to the requirements of 40 CFR 761.61(a)(5)(v) (including disposal in a MSWLF) or 40 CFR 761.79.

(11) Compliance

- a) The NRECA Member shall ensure that activities conducted pursuant to these Approvals are in full compliance with conditions of the Approvals. Failure to comply with any term or condition of these Approvals is a violation of these Approvals and of 40 CFR 761.50(a) and 761.61(c). A violation of the regulations or an order issued pursuant to TSCA and its implementing regulations is a prohibited act under Section 15 of TSCA. Any actions by the NRECA Member which violate the terms and conditions of these Approvals may result in administrative, civil judicial, or criminal enforcement by the EPA in accordance with Section 16 of TSCA, 15 USC § 2615.

³ For example, measure Aroclor™ 1242 PCBs based on a comparison with Aroclor™ 1242 standards. Measure individual congener PCBs based on a comparison with individual congener standards. The results must be reported as total PCBs in the sample analyzed.

- b) These Approvals do not constitute a determination by the EPA that the transporters or disposal facilities selected by the NRECA Member are authorized to conduct the activities set forth in the notification. The NRECA Member is responsible for ensuring that its selected transporters and disposal facilities are authorized to conduct these activities in accordance with all applicable federal, state, and local statutes and regulations.
- c) These Approvals do not: (1) waive or compromise the EPA's enforcement and regulatory authority; (2) release the NRECA Member from compliance with any applicable requirements of federal, state, or local laws, regulations, or ordinances; or (3) release the NRECA Member from liability for, or otherwise resolve any violations of federal, state, or local laws, regulations, or ordinances.
- d) Compliance with applicable PCB regulations at 40 CFR part 761 shall be maintained during all phases of work involving removal, handling, storage, and disposal of PCB Remediation Waste.

(12) Membership Changes

In the event that a company that joins NRECA after the date of signature of these Approvals, if the company wants to obtain an approval with the same conditions, the new member must be submitted by NRECA as follows. NRECA shall submit electronically a list of current members in an updated "Appendix II: NRECA Members" to ORCR's Cleanup Programs Branch Manager quarterly, as needed. NRECA shall specify the new members in each update. Upon receipt of a submission reflecting new member companies that want to obtain an approval with the same conditions, the EPA may publish for public comment a draft approval containing the same terms as these Approvals for each new company.

In the event that a NRECA Member listed in Appendix II leaves NRECA, NRECA may submit electronically a list of the departing NRECA Members to ORCR's Cleanup Programs Branch Manager quarterly, as needed. Those companies shall continue to be able to utilize their approvals and will continue to be listed on Appendix II until their approvals expire.

(13) Expiration/Renewal

- a) These Approvals shall become effective upon signature and will expire five (5) years from the date of signature. In order to continue operating under these Approvals pending EPA action on reissuance, NRECA Members, individually or through NRECA, must submit written renewal applications to the EPA at least 180 days prior to the expiration date of these Approvals.
- b) These Approvals and their conditions herein will remain in effect beyond the Approvals' expiration date if NRECA Members, individually or through NRECA, have submitted timely and complete applications for approval and, through no fault of NRECA or NRECA Members, the EPA has not issued renewed Approvals, a denial of an application for Approvals' renewal, or an official termination of Approvals.

- c) The EPA may require submission of additional information in connection with the renewal of these Approvals.

(14) Non-Applicable Requirements

PCB Remediation Wastes managed in accordance with these Approvals shall not be subject to the requirements of 40 CFR 761.65 or subparts J and K of 40 CFR part 761, except as otherwise noted in these Approvals.

DECISION TO APPROVE THE REQUEST FOR RISK-BASED DISPOSAL OF SELECT PCB REMEDIATION WASTES

1. Approvals to dispose of PCB Remediation Waste generated at secure utility assets with as-found concentrations less than 50 ppm PCBs in non-TSCA approved disposal facilities pursuant to 40 CFR 761.61(c) are hereby granted to NRECA Members identified in Appendix II of these Approvals, subject to the conditions expressed herein. The EPA reserves the right to modify the conditions of these Approvals or to withdraw the Approvals when (1) the EPA obtains information demonstrating that operating in accordance with the conditions of these Approvals presents an unreasonable risk of injury to health or the environment; (2) the EPA becomes aware of new information that requires changes; or (3) the EPA issues new regulations, standards, or guidance for such approvals.
2. These Approvals do not relieve NRECA Members (identified in Appendix II of these Approvals) of the responsibility to comply with all applicable federal, state, and local laws, regulations, or ordinances. Violations of any applicable federal, state, and local laws, regulations, or ordinances by any NRECA Member may subject them to enforcement action and may result in such NRECA Member's exclusion from these Approvals.
3. These Approvals may be rescinded at any time with respect to any NRECA Member at a particular location(s) as a result of such NRECA Member's failure to comply with the terms and conditions herein, failure to disclose all relevant facts, or for any other reason which the Director of WCID deems necessary to ensure that work conducted pursuant to these Approvals poses no unreasonable risk of injury to health or the environment.
4. The NRECA Member shall allow any authorized representative of the Administrator of the EPA to inspect the Site and to inspect records and take samples as may be necessary to determine compliance with the PCB regulations and these Approvals. Any refusal by the NRECA Member to allow such an inspection (as authorized by Section 11 of TSCA) shall be grounds for exclusion of said NRECA Member from these Approvals.

Date

Catherine M. Davis, Acting Director
Waste and Chemical Implementation Division

APPENDIX I: Background and Findings

BACKGROUND

The National Rural Electric Cooperative Association (NRECA) is the national trade association representing nearly 900 not-for-profit electric cooperatives and other rural electric utilities, including 64 generation and transmission (G&T) cooperatives and 832 distribution cooperatives. America's electric cooperatives are owned by the people that they serve and comprise a unique sector of the electric industry. From growing exurban regions to remote farming communities, electric cooperatives provide power and serve as an engine of economic development to 42 million Americans in 48 states and across 56 percent of the nation's landscape. On September 26, 2025, NRECA submitted an application under 40 CFR 761.61(c) requesting authorization for its Member Companies to dispose of PCB Remediation Waste generated at secure utility assets with as-found concentrations of < 50 ppm PCBs in non-TSCA approved disposal facilities.

FINDINGS

The EPA finds that the disposal of PCB Remediation Waste generated at secure utility assets with as-found concentrations < 50 ppm PCBs in the facilities listed in Condition 9 poses no unreasonable risk of injury to health or the environment when conducted in accordance with the conditions of these Approvals. Under the self-implementing cleanup and disposal provisions of 40 CFR § 761.61(a), non-liquid PCB Remediation Waste containing PCBs < 50 ppm – the kind of remediation waste addressed in these Approvals – can be disposed of in the same types of non-TSCA permitted disposal facilities (40 CFR § 761.61(a)(5)(i)(B)(2)(ii)). In the 1998 rule that, among other things, allowed for this disposal, the EPA found it would “protect [] against unreasonable risk of injury to health and the environment from exposure to PCBs.” 63 Fed. Reg. 35384 (June 29, 1998).

APPENDIX III: Notification Information

In accordance with the 40 CFR 761.61(c) risk-based disposal Approvals issued by the U.S. EPA to dispose of PCB Remediation Wastes generated at secure utility assets and containing as-found concentrations < 50 ppm PCBs, the following information is provided:

A. NRECA MEMBER IDENTIFICATION:

Company Name (as it appears in the Approval)

Address including City, County, State, Zip

Primary NRECA Member Contact Name

Primary NRECA Member Contact Information
(phone and email address)

Primary Recordkeeping Contact Name (if not the
same as the Primary NRECA Member Contact)

Primary Recordkeeping Contact Information
(phone, email address, and address if not the
same as the addresses listed above)

B. SITE LOCATION:

EPA ID Number of the Secured Asset (if
available)

Address including City, County, State, Zip

Latitude/Longitude (if no street address)

Primary Recordkeeping Contact Name (if not the
same as the Primary NRECA Member Contact)

Primary Recordkeeping Contact Information
(phone, email address, and address if not the
same as the addresses listed above)

C. WASTE

Date waste was discovered

Description of waste (max concentration, media,
estimated quantity)

Size of Site area containing the PCB Remediation
Waste being disposed of

Name, location, and type of facility at which the
waste will be disposed of

D. SUBMITTAL

Method of Submittal of this Notification (i.e.,
Certified Mail or Email)

Date Submitted

Submitted to (print name)

Submitted by (print name)
